

# Knee Strap

Focused pressure & stability for knee

For running, jumping, hiking & other sports

ErgoBeads® cushion and protect

DESIGNED BY AN ORTHOPEDIC SURGEON

## Targeted Relief for Knee Pain

**Knee Strap** provides non-invasive, targeted pain relief for your knee. The exclusive ergoBeads® pressure pad conforms to your knee's anatomy to provide gentle, focused pressure for maximum support, comfort and stability. The Knee Strap also features a dual-locking system to offer flexible tension and a perfect fit.

### Key benefits:

ergoBeads® pressure pad adjusts to the anatomy of your knee

Helps stabilize kneecap to improve alignment and tracking

Provides focused pressure to reduce knee pain

### Ideal for daily activities:

Tendonitis

Chondromalacia

Runner's & jumper's knee

Iliotibial Band Syndrome

Osgood-Schlatter's disease

Other knee conditions
