NON-SKID  
BOTTOM STAYS  
IN PLACE

The Non-Skid Keyboard Cushion offers all of the same benefits as the original, with the added benefit of a non-skid bottom to keep it in place. Uniquely designed with ergoBeads® by an Orthopedic Surgeon, it provides complete ergonomic support for your hand and wrist. Use while mousing or gaming to reduce the risk of a long term repetitive strain injury.

ErgoBeads are specially designed plastic beads that glide comfortably against your skin. This creates a massaging effect to help increase blood circulation to help promote healthy muscle tissue.
