COOLING RELIEF

USE AT YOUR
OFFICE DESK

The Keyboard Cushion is filled with massaging ergoBeads®, a smooth bead filling that provides optimal ergonomic comfort for your computer keyboard. The cushion is uniquely designed by an Orthopedic Surgeon to provide complete ergonomic support for your wrist and forearm. Use while typing or gaming to reduce the risk of a long term repetitive strain injury.

ErgoBeads are specially designed plastic beads that glide comfortably against your skin. This creates a massaging effect to help increase blood circulation to help promote healthy muscle tissue.
